RM Easiteach Software Benefits

- Build and deliver dynamic interactive lessons
- Includes all Easiteach curriculum toolbars (not just the starter pack): Math, Science, English Language Arts, and Geography.
- Allows installation on up to five computers.
- Access to downloadable state-aligned lessons and activities.

Choose the subject, choose the grade level, choose the activity

Expand RM Easiteach's capabilities with the addition of subject focused toolbars and standards correlated content packs.
Both RM Easiteach's toolbars and content packs make it simple for educators to get up and running with interactive technologies
and increase their effectiveness in the classroom. Students will find the lessons exciting and motivating.
With RM Easiteach students and teachers alike will be begging for more interactive lessons!

RM Easiteach Curriculum Toolbars

RM Easiteach makes every lesson fun, engaging, and effective. Curriculum toolbars include easy-to-use teaching tools
including place-value cards for Math, sentence builder cards for English Language Arts, map building tools for Geography,
and stopwatch and timer tools for Science.

Math Toolbar

Tools included:

- Function machine
- Customizable number lines
- Number grids
- Numbers, algebra, symbols palate
- Plus circles
- Fractions
- Place value cards

RM Easiteach Math is a whole-class teaching tool consisting of many familiar
Math resources that come to life in an interactive environment. Tools included are:
function machine, customizable number lines, number grids, fractions and graphs
allowing you to make exactly what you need, plus circles, numbers algebra and
symbols palate, and place value cards ranging from 0.0001 to 9 million.

Science Toolbar

Tools included:

- Select image source
- Magnetic lines
- Image capture
- Stopwatch and timers
- Rulers
- Calipers
- Science symbols
- Science units

The Science toolbar allows you to integrate connected devices
like digital and web cameras, electronic microscopesand desktop visualizers,
to enable the projection of images to the whole class. These images
can then easily be edited and interacted with using the toolbar.
Tools included are: select image source, image capture, rulers,
calipers, magnetic lines, stopwatch and timers, Science symbols and units.

Geography Toolbar

Tools included:

- Grid reference reader
- Grid overlay
- Grid fill
- Compass rose
- Scale reader
- Navigator
- Distometer
- Map builder

The English Language Arts tools are especially effective when teaching language
at word, sentence and text levels. The 'split-screen' feature allows you to display
text on one page and to drag words or blocks of text to another page for editing
or reformatting. Tools included are: Word and sentence builder cards, add
and remove punctuation, Cloze procedure, writing frames, spell checker, word
highlight, speak words, repel text for desk top publishing and a timer to increase
pace in lessons. All the tools work on any text typed directly onto the page or
cut and pasted from elsewhere.

English Language Arts Toolbar

Tools included:

- "Cloze" procedure
- Word/Sentence builder cards
- Writing frames
- Add/remove punctuation
- Spell checker
- Word highlight
- Speak words

Easiteach Geography provides a set of tools that are designed specifically to
support the teaching of geography to students of all ages. Explore directions
and routes, measure distances and even create your own maps. Tools included
are: grid overlay, grid fill, grid reference reader, compass rose, navigator,
scale reader, distometer, and map builder.

RM Easiteach Lesson Content Packs

Content Packs contain ready-made lesson activities that include comprehensive teaching notes with objectives, questioning strategies, and ideas for additional, related activities. These resources have been developed by or in consultation with teaching experts and are suitable for a range of learning styles. They are highly visual, very interactive, easy to modify... and most of all fun to teach with.

Correlated to State Standards

Content Packs are specifically designed for the education community. Educators and educational experts collaborate to create the software, content, lesson plans, games and concepts available from RM Easiteach.
